

## Full Transcript of "'David's Infamous 9/11 Terror Threat Post"

*Explanatory: The lines represent breaks between new "posts".*

**David Hopkins** Susan Best You misunderstand... I bought the lot so that I could obtain power to accomplish some things. Property Ownership opens doors that were planned long ago. It is simply time to implement. I am exceptionally happy with my life. And I'm going to enjoy what comes next. My guess is that many will not enjoy it. But I will.

The good people of Big Canoe will enjoy it once they understand it. But the 10%? The people used to getting their way over the desires of everyone else? Those that think they run this place? Not so much.

---

**Susan Best** 🙄 I am not understanding why you want to accomplish "things" in a community for which you have a \$4500 vested interest. What is your point? And why have you decided to make your point here?

---

**David Hopkins** Susan Best I live here Susan. I have lived here since 1999.

But here is a suggestion.... head north up Hwy 78 to a little place called Blairsville. I showed up unannounced one day on a message board there and did not leave for 2 years. The town changed permanently. The sole commissioner was crushed to a shell of his former political existence. UCBI, the 2nd largest bank in Georgia (3rd?) was raided by the FBI, land deals and investigations ran rampant, and the Editor of the local paper got fired from his 18 year position. Ask Lamar Paris if he remembers the day I showed up.

Before that in Ellijay.... the Bank was raided, and then shut down. The CEO was driven to suicide, the CFO spend 5 years in the federal penitentiary, and the REO Manager was indicted and convicted on about 5 counts and I never followed up to see how long he served. he's still in I think. And the biggest names in the county were shuffling papers like mad covering up land deals. Many were forced into foreclosure as people exited deals like rats from a sinking ship. I felt no pity for them for they had chosen their paths and done it all to themselves.

I just set it all in motion, because I followed simple instructions.

And right here.... from where I sit tonight, I answered the doorbell on 9/12/2001 as one of the very first people in the entire nation to have a knock on the door from the FBI the day after 9/11. It seems that when you send 10's of thousands of emails and faxes across the globe to every financial center, and place hwy billboards up across the center of the nation warning of something.... and it comes to pass.... they take you seriously.

And I warned everyone who would listen, and those that wouldn't listen in 2007 of what was coming. I remember "Jerry". Jerry loved all the best seats in the club here. Wore big fat gold chains around his neck. Was worth Millions.... in paper and mortgages. He came to me to help him sell, and I told him what to do, and he laughed at me. Within a year he had lost every house, his wife left him, and he was living with momma. I felt no pity for him because he was warned.

**I now have a Project and it is Big Canoe. And I have a warning again - for what is coming, and it will dwarf that day on 9/11 as if it were almost an inconsequential and trivial event, and it will dwarf that minor recession in 2008 as if that were the best of times.**

And we'll get this community ready for an influx of young families - and we'll do it the hard way, or the easy way... but get it done we will. And those that stand in the way will be swept aside as if they were as inconsequential as sand tossed by an ocean wave.

And here is the best part... this is the part when many of you start laughing and mocking even harder... but I'm laughing too, because having done this so many times before.... I no longer question when the Lord sends me to accomplish a thing.

So shall my word be that goes forth from my mouth;  
it shall not return to Me void.  
But it shall accomplish what I please,  
And it shall prosper in the thing for which I sent it.

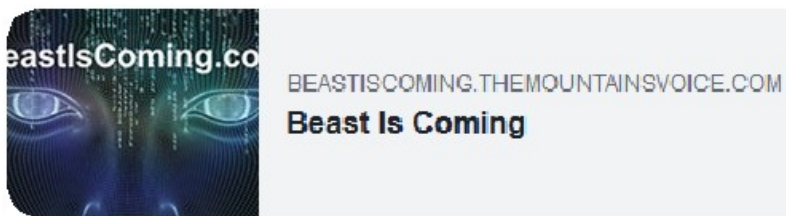

Who has caused so great a stir here in such a short time? Who has brought forth so much into the light? This is just the beginning.

Peace,  
- david  
aka The Mountains Voice

**David Hopkins** PS.... to clarify... my Warning" is a global warning - not specific to Big Canoe. I even have a website which references the general nature of the first wave of the threat...

[www.BeastIsComing.com](http://www.BeastIsComing.com)

---

And that was it. The biggest problem was that the last portion, the additional explanation, was intentionally deleted and not shared – as primarily only the **“Bold”** part was circulated, and with each sharing, it was pronounced that David Hopkins had threatened the Community with a 9/11 style terror attack, intentionally and maliciously spreading fear, and sowing hatred and mistrust – while clearly NOT a threat to Big Canoe, and most definitely never mentioning “The Board” as an attack target. But let’s go back and read a little more explanation at the webpage...
