(1) I am requesting a copy of the recent Petit Dam Report. I believe I saw somewhere that it was 25 pages. It was previously stated that the report would be released at the annual property owners meeting. Not surprisingly that did not happen, nor did it happen before the end of the year. I am requesting a copy.

(2) I am requesting a copy of the most recent EAP (Emergency Action Plan) for the Dam.

Hello David.

The documents that you are requesting are not part of the books and records that the Big Canoe governing legal documents nor Georgia law authorize an Owner to request and/or to inspect. As such, this request must be denied. Please note that a great deal of information was provided to the Owners during the Working Session on January 14th regarding the dam inspection, and if you wish for further information regarding the dam you are welcome to review the monthly Board Meeting minutes for updates which Minutes are published on the Big Canoe website each month.

In addition, as I said at the working session last evening, once we have a concrete plan from Geosyntec I will be scheduling a zoom community coffee to review the plan, timing, and financial plans for the Dam improvements. I anticipate this will be towards the end of February.

Scott Auer,  
General Manager
